

## America the Beautiful

By: Savannah Johnson

Our wonderful country is the USA, and I think we should be proud because of how many lives were taken to make our life better. One war we started and won was the American Revolution. That was started by the Boston tea party. The Boston tea party took place in 1764. The revolution started 2 years later. All of it ended in 1784.

The holiday to celebrate our countries victories is mainly the 4 of the July. The 4 of July is literal on this day because that was when the deceleration of impends was signed. The deceleration is about the rules to help use run a good nation. On the fourth of July to show their support people often set off fireworks. People also often ware the colors red white and blue.

I also like our country because it is the first 13 colonies put together. But now there are 50 states. It is an honor to live in our country because of how many rights and freedoms we have and what there are. Such as the freedom to choose our religions' and clothes our clothes. Another thing I like is the freedom to choose what career we want when we grow up. I also like that you can vote.

Some people I think represent our country well are Amelia air heart and gorge Washington. They were both brave, nice, and never gave up. Also because they each did something big in their life. Like being a president or being the first woman to fly over the Atlantic Ocean.

Are fantastic country is full of wonderful mountains, deserts, seas and much more. Our nation also is filled with people who are creative, loving, and smart. America also as a nation protects others freedoms and our own. Are army, navy, air force, and Special Forces are best as this! And that's why I love my country.
